

CAPABILITY STATEMENT

Octave Technologies Corporation, is a small business with **50 years of digital transformation experience** across federal/state agencies and commercial sector. Recognized by our clients and partners for delivery of innovative digital services, we partner with small and large businesses to deliver exceptional results.

From improving population health to eliminating fraud and abuse in healthcare, our mission is to serve our customers and their stakeholders with the best digital experience. We have successfully delivered results on mission critical programs and important legislative mandates of the last decade.

The success of our clients and partners is a major reason why the **FedHealthIT awarded 2020 innovation award** for our API Gateway initiative at the federal government agency CMS' CPI
